Biomembranes

Vol. 1150, 1993

Cumulative Contents

Information for Contributors vii

Regular Papers

Orientation and aggregation of hydrophobic helical peptides in phospholipid bilayer membrane
K. Otoda, S. Kimura and Y. Imanishi (Japan) 1

Subcutaneous administration of liposomes: a comparison with the intravenous and intraperitoneal routes of injection
T.M. Allen, C.B. Hansen and L.S.S. Guo (Canada, USA) 9

FTIR analysis of nicotinic acetylcholine receptor secondary structure in reconstituted membranes
D.H. Butler and M.G. McNamee (USA) 17

Metabolism of the 'organic osmolyte' glycerophosphorylcholine in isolated rat inner medullary collecting duct cells. II. Regulation by extracellular osmolality
H.G. Bauernschmitt and R.K.H. Kinne (Germany) 25

Characterisation of erythrocyte transmembrane exchange of trifluoroacetate using ^{19}F-NMR: evidence for transport via the monocarboxylate transporter
A.S.L. Xu and P.W. Kuchel (Australia) 35

Evidence in favor of the existence of a kinetic barrier for proton transfer from a surface of bilayer phospholipid membrane to bulk water
Y.N. Antonenko, O.N. Kovbasnjuk and L.S. Yaguzhinsky (Russian Federation) 45

Human erythrocyte shape regulation: interaction of metabolic and redox status
H.-T.N. Truong, D.L. Daleke and W.H. Huestis (USA) 51

Dithiothreitol stimulates the activity of the plasma membrane aminophospholipid translocator
H.-T.N. Truong, D.L. Daleke and W.H. Huestis (USA) 57

Cyclic nucleotide-activated channels in carp olfactory receptor cells
S.S. Kolesnikov and A.V. Kosolapov (Russian Federation) 63

A test for screening monoclonal antibodies to membrane proteins based on their ability to inhibit protein reconstitution into vesicles
F. Gaymard, J.-B. Thibaud, B. Touraine, F. Simon-Plas, J.-P. Grouzis, R. Gibrat, H. Sentenac and C. Grignon (France) 73

Identification of a scavenger receptor in rat luteal cells which recognizes chemically modified lipoproteins and mediates the uptake of cholesterol for steroidogenesis
Z. Chen and K.M.J. Menon (USA) 79

Puromycin inhibits protein import into mitochondria by interfering with an intramitochondrial ATP-dependent reaction
J. Price and K. Verner (USA) 89

Covalently bound lipids in keratinizing epithelia
F. Chang, D.C. Swartzendruber, P.W. Wertz and C.A. Squier (USA) 98

Transport of organic cation in renal brush-border membrane from rats with renal ischemic injury
S. Maeda, M. Takano, T. Okano, K. Ohoka, K.-i. Inui and R. Hori (Japan) 103

Voltage-sensitive fluorescence of amphiphilic hemicyanine dyes in neuron membrane
P. Fromherz and C.O. Müller (Germany) 111

The anticancer drug tamoxifen induces changes in the physical properties of model and native membranes
J.B.A. Custódio, L.M. Almeida and V.M.C. Madeira (Portugal) 123

Induction of lipid-protein mismatch by xenobiotics with general membrane targets
H. Sandermann, Jr. (Germany) 130

Effects of pH on the activity of the human red cell glucose transporter Glut 1: transport retention chromatography of D-glucose and L-glucose on immobilized Glut 1 liposomes
L. Lu, E. Brekkan, L. Haneskog, Q. Yang and P. Lundahl (Sweden) 135

High levels of P-glycoprotein detected in isolated brain capillaries
L. Jetté, B. Têtu and R. Béliveau (Canada) 147

Accessibility of spin-labeled phospholipids in anionic and zwitterionic bilayer membranes to paramagnetic relaxation agents. Continuous wave power saturation EPR studies
M.M.E. Snel and D. Marsh (Germany) 155

Destabilization of egg lecithin liposomes on the skin after topical application measured by perturbed $\gamma\gamma$ angular correlation spectroscopy (PAC) with ^{111}In
R. Schubert, M. Joos, M. Deicher, R. Magerle and J. Lasch (Germany) 162

Abscisic acid–lipid interactions: a phospholipid monolayer study
H. Bürner, R. Benz, H. Gimmler, W. Hartung and W. Stillwell (Germany, USA) 165

Spin-label studies on phosphatidylcholine-polar carotenoid membranes: effects of alkyl-chain length and unsaturation
W.K. Subczynski, E. Markowska and J. Sielewiesiuk (Poland, USA) 173

Diffusivity and structural polymorphism in some model stratum corneum lipid systems
R. Lieckfeldt, J. Villalain, J.C. Gomez-Fernandez and G. Lee (Germany, Spain) 182

Intersecting polymers in lipid bilayers: cliques, static order parameters and lateral diffusion
D.A. Pink, R. Merkel, B. Quinn, E. Sackmann and J. Pencer (Canada, Germany) 189

Rapid Report

Kinetic characterization of a stably expressed novel Na^+/H^+ exchanger (NHE-2)
T. Honda, S.M. Knobel, N.M. Bulus and F.K. Ghishan (USA) 199

Cumulative Contents, Vol. 1150 203
